ANALYSIS OF INDUSTRY FEEDBACK: BE 2022-23

Sr No	Details	Analysis	Action taken
1	Average Overall Performance (Out of 5)	4	
2	Present Dominant Competencies & Skills	Strong coding capabilities, communication skills, flexibility, collaborative mind set, good knowledge of database, professionalism	
3	Means of Interaction	Expert lectures, final year project, industrial training, industrial visit	
4	Curriculum Gaps Observed	Six months internship, exposure to functional programming, Paradigm, knowledge of HDLC, Computer Networking and Operating Systems, application mind set, practical exposure in manufacturing, basics of OOPs concepts, knowledge of web application	1) Students are promoted to go for 6 months internships. Students need to be present only for exam period. 2) The online material is provided to the students for exam preparation. 3) The various guest lectures are organized
5	Suggestions for Depts and Students	More focus on real world problems, application and projects, study of some topics related to commercial aspects of technology, need to focus beyond common online platforms like Leet code and Code chef, goal oriented study, more focus on core engineering, more depth in database skills, more weightage to be given on full stack development.	1) More emphasis given on project based learning and seminar. 2) Competition on projects was organized for all students at various levels. 3) A new international ACM chapter is introduced in AIT. 4) The various FDP were organized for faculty to enhance new technologies.
