Army Institute of Technology.pptx;

Respected Sir,**Greetings from SHL!!**

Kindly find the attached B.tech 2024 batch Analytical deck of your Campus attached herewith on behalf of AMCAT Assessment.

We hope all the students are taking the AMCAT Feedback reports seriously and have started concentrating on their areas of improvement. Working sincerely on their weak areas would help them become more employable and start their careers on a brighter note.

As partners, we wish to assist you in enhancing the employability of students at your campus. To achieve this goal, our research and Analytics team has done a detailed analysis of the capabilities of students at your campus to understand their strong areas and those that require attention.

For areas that require attention, our team has carefully selected global best practices and designed pedagogy which we sincerely feel, if implemented, will go a long way in improving the employability of students
